Ram	3	...	...	1	3
Ewe	3	...	...	1	3
She-goat	3	...	...	1	3
Buck	Three gold medals.				
Ponies	15	10	10	3	35
Total ...	...	...	...	24	185

4. Selection for prizes will be made by a Committee of experienced and influential representatives of raiyats that assemble at the place with the President of the Harihar Municipality as Chairman. Prizes will be distributed at the close of the show.

5. Every prize winner will receive a certificate in addition to his prize in money or of a medal.

6. In the absence of an eligible exhibit the prize awardable thereto will be withheld or awarded for any other exhibit of sufficient merit.

7. Intending exhibitors will apply to the Deputy Amildar of Harihar two days before the commencement of the show and get their names and description of their exhibits duly registered.

8. The owners of cattle for the show are expected to take due care of their animals and guard against accidents.

9. Owners will do well to make their own arrangements for providing their cattle with fodder as the local supply, which will be made available at reasonable rates, may not suffice to meet the requirements of more than a limited number of cattle adjudged suitable for the show.

10. The jatra is generally well attended and will afford a good market for dealers in cattle, etc.

11. A fee of one anna will be levied on each head of cattle attending the jatra.

M. HASSAN ALLI,
For *Deputy Commissioner*.

SANDALWOOD OIL FACTORY, BANGALORE.

Dated 19th January 1917.

Notice is hereby given that sealed tenders will be received at the office of the Superintendent, Sandalwood Oil Factory, Bangalore, up to 12 noon of 10th February 1917 for the supply of 4,000 tons of Casuarina fuel for Sandalwood Oil Factory, Bangalore, for the year 1917. This quantity is only an approximate estimate of the requirements of the Factory which is what the successful competitor will be regarded as bound to supply.

2. Tenders should be submitted on printed forms which may be obtained from the Superintendent. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

Description of work	Unit of work	Rate per unit
Supply of casuarina fuel	Ton.	

3. Each tender must be accompanied by a deposit of Rs. 750 in cash or Government promissory notes, as earnest money, and be superscribed "Tender for the supply of Casuarina to Sandalwood Oil Factory, Bangalore," in default of which, tenders will be rejected.

4. The final acceptance of any tender will rest with the Superintendent, Sandalwood Oil Factory, Bangalore, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

5. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled and his earnest money will be forfeited.

6. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the Superintendent's office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

7. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

8. Specifications for casuarina fuel are herewith attached.

9. The contractor whose tender is accepted should begin the collection from fifteen days from the date of intimation of the acceptance of his tender from this office.

10. During the first month at least 500 tons of casuarina fuel should be supplied.

11. The monthly collection of the balance should not be less than 500 tons of casuarina subject to the maximum limit of 550 tons.

SPECIFICATION FOR CASUARINA FUEL.

1. The wood to be solely casuarina and to be in straight lengths. The maximum and minimum dimensions which will be accepted are given below:—

	Length.		Thickness.	
	Maximum.	Minimum.	Maximum.	Minimum.
Running wood	24″	18″	8″	3″

The billets are to be sawn to lengths, not chopped.

The wood to be stacked by the contractor in the portion approved by the Superintendent or his representatives.

Stacks must be of rectangular shape, the sides being vertical and straight and the tops level; the wood must be laid evenly straight and close; the pieces composing the walls must be laid at right angle to the direction of such walls, having first been sawn to an uniform length as above; the interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their lengths all in the one direction which leave no vacant space.

The stacks to be built of such dimensions that the cubical measurements of each is a multiple of 68 cubic feet.

17 feet by 8 feet by 5 feet=680 cubic feet=10 tons. Sixty-eight feet of closely stacked wood will be accepted as equivalent to one ton.

The Superintendent or his representatives will inspect the wood as it is being stacked and shall have the power to reject any pieces that are hollow, rotten, crooked or otherwise unsuitable for fuel for engines; he will also satisfy himself that the pieces are in accordance with the dimensions specified above and that the stacks are built as required; he shall also have power to reject any stacks which do not, in all respects, comply with the terms of this specification.

The wood must be at the risk of the contractor until it is stacked, approved, measured, and accepted by the Superintendent or his representatives.

When stacks are taken over the contractor or his representative must be present during the measurement and must sign the record of measurement made by the Superintendent or his representatives in token of his agreement to the corrections thereof.

R. RAMANUJA IENGAR,
For *Superintendent.*
